

Our exploration of these amazing European cities includes time to appreciate the neighborhoods, cuisine, and culture of Germany and Austria, while students flex their navigation, budgeting, and German language speaking skills.

In Munich, students will gain an appreciation of the cultural contributions and the complicated history of the German people, while enjoying the best of Bavarian cuisine. Our journey continues to the Austrian Alps to visit the beautiful city of Salzburg and the surrounding countryside. We also visit Vienna, a city which contrasts the long history of the Habsburg Monarchy with a vibrant, modern atmosphere.
